One office suite within the same building as an established chiropractic practice. Building is approximately four years old, the subject space is approximately 1440 sq ft. and ready to be built out. Would make a tremendous office location for a multitude of professional users. Proposed layout attached as an example, but not a definite end product. Suite can be built out to suite tenants specific needs. Great building and great location, schedule your appointment today to check it out! \*Structure square footage nor lot dimensions warranted by Realtor.
