If your buyer is ready to find their dream home, we are too! This beautifully updated home features four spacious bedrooms, two full bathrooms, and two partial baths. The sellers, who are contractors, have recently renovated and upgraded many features, including a double sink and faucet in the kitchen, new vanities in the bathrooms, along with stylish tile work, a walk-in shower in the primary bathroom, and modern lighting and plumbing fixtures throughout. Ceiling fans and toilets have also been updated for comfort and convenience. They also added soft-close cabinets, incorporated wood features into the walls, relocated the laundry room, and added storage. And wouldn't you love a gas cooktop and double ovens for the holidays? Additionally, they created a new outdoor patio for their fire pit and installed exterior lighting and landscaping. The home also features two attic spaces, which are most useful for extra storage, a workshop inside the garage, and a tool shed located beside the house. Also added was an eight-foot privacy fence to the left and back of the property. The drapes, custom blinds, and TVs remain. (Ask about furniture that may be available for sale.)
