Welcome to our home! This home has been an absolute treasure for our family and we can't wait for you to see it. This is a four-bedroom, three-bathroom home that was flipped when we purchased it four and a half years ago. When we bought it, the list of what was new was incredibly long. At the time the roof and AC systems were brand new! All new paint, custom cabinets, trim, and new flooring throughout the entire house. It has been maintained very well during our time here! Our primary bedroom along with one of our other bedrooms both have en suite bathrooms, and our primary bedroom has two walk in closets! You can find an office space in our other bedroom with the en suite bathroom as well! Subway tile tub surrounds can be found in all of our tubs. Granite countertops can be found in each bathroom as well as in our kitchen! Our living room has very high vaulted ceilings that we hope you will love along with a brick wood burning fireplace that was much appreciated during the winter! Outside you'll find a spacious backyard with plenty of tree cover, and it is partially enclosed with a chain link fence to suit pets and younger kids! We have azalea bushes near the road large enough to add some privacy to the front yard, and they are a delight to see when they bloom! We look forward to having you see the home that has meant so much to us!
