\$200,000

3 Bedrooms | 1 Bathroom | 1,236 Sqft

If you appreciate quality, this is the home for you! This solidly built home offers the peace of mind that comes with knowing all the big-ticket updates have already been handled. Constructed with solid sheeting throughout both the interior and exterior walls, this home was built to last. The roof was replaced in 2021, and the HVAC system including both indoor and outdoor units is just two years old. A whole-home generator with an automatic transfer switch provides uninterrupted power, while the brand-new 5-burner cooktop stove and updated Pro Pex water lines deliver modern reliability and efficiency. The home also features functional shutters and a corner lot making it easy to park and store your extras like a boat or camper. There is also a large detached storage that could house your lawn equipment or serve as a workshop. This home is a blank slate waiting for your decor to match your personal style because the most expensive and essential improvements have already been completed. Call your favorite REALTOR today to schedule a private showing!
