\$5,180,000

One of the only large tracts of land left in Central City featuring approximately 2,000 feet of frontage on Wax Road, directly across from Central High School. Bordering the Central City 2030 Master Plan, this property sits beside a visionary community development that will include walking trails, pavilions, lakes with sand beaches, playgrounds, sports fields, mixed-use spaces, and RV accommodations. With its size, frontage, and connection to the city's future growth corridor, this site is a developer's dream perfect for residential, commercial, or mixed-use projects that want to be part of Central's next chapter.
