What a showplace! From the moment you drive up you will know to call this place home. Lush landscaping with a sprinkler system enhances the manicured lawn. As you walk in the front door, you will notice the gleaming wood floors and the 10 and 12 foot ceilings. Entertaining is easy with this open floor plan. The kitchen is a gourmet's delight! It has a large pantry with lots of custom cabinets and countertops, and stainless steel appliances with a Jenn-air gas cooktop. The master bath has a jetted tub and a separate shower. The carpet is brand new in the master bedroom. Step outside to a fenced backyard oasis! The patio is 20 x 18, much of which is covered. The home was the model home for the neighborhood, so it has too many upgrades to list! This home was built by Gil Broussard on a post-tension slab.
