Looking for a home that not only has great living area but also covered outdoor space, too? This is the one. The 3-bedroom, 2 bath home includes a large den with built-in bookcases, a separate living room currently used as an office, as well as the kitchen/breakfast areas. Maybe the best part is the master bath which was added on and has a large walk-in shower, vanity and large walk-in closet. There is a separate bath area connected to the bedroom with its own sink and toilet. An additional hall bath services your guests and the 2 additional bedrooms. You won't want to miss the covered areas in the rear yard! You will have covered parking for 4 vehicles, plus a covered back patio space. And there is a large workshop right off the patio area. Additional parking is available in the front carport which leads into the home.
