Completely re-done home near Terrebonne General Medical Center and Houma's Medical District. This welcoming home is well built and has an open concept with a tankless water heater and a unique main bedroom (two walk-in closets and an en-suite bathroom). While walking through this home, you forget it is not on a slab as the floors were built with extremely solid re-enforcements! House is a half mile from the popular Downtown Marina and would make a great first home or investment property.
