Put away your renovation budget, because this home has everything you want. Start with high ceilings, stacked crown molding, coffered ceilings, and eight-foot doors to match. Window treatments include plantation shutters on the interior and storm shutters on the exterior. Floor coverings are wood-grained porcelain tiles for the modern look and lifetime durability. The kitchen is spacious and open to the living and dining rooms, featuring custom cabinets and appliances, a wraparound island bar, and a large pantry. Now that you're in love with the interior, step out to the screened patio and carport area, with over 900 sf, for endless parties or quiet family nights, next to the gas log fireplace and overlooking the in-ground, heated gunite pool with a salt-water chlorination system. The pool was built in 2021. Still want more? Schedule a tour. We've only scratched the surface of all this house has to offer. This property is located in flood zone X.
