4 Bedrooms | 2 Bathrooms | 2,127 Sqft

Better than new construction, this thoughtfully designed modern cottage offers 4 bedrooms, 2.5 bathrooms, & exceptional indoor/outdoor living in the heart of St. Francisville. The striking exterior features a lifetime standing seam metal roof + a fully fenced private courtyard designed for effortless outdoor living. With a dedicated fire pit gathering area on one side and a saltwater pool on the other, it offers a peaceful, resort-like setting perfect for entertaining or relaxing in complete privacy. Inside, 10-foot ceilings, stained concrete floors, and a wall of windows fill the home with natural light while showcasing courtyard views from nearly every room. The open floor plan is both beautiful and functional, with a cottage-style sliding door that provides privacy for the guest bedroom wing when needed. The 4th bedroom is currently used as a den or home office. The chef's kitchen features Thermador Professional Series appliances, including a gas range, Carrara quartz countertops with a full-height backsplash, a large island with seating, and a walk-through pantry complete with abundant storage and a coffee station. The spacious primary suite overlooks the courtyard and includes double vanities, a custom cypress cabinet, a beautifully tiled walk-in shower, soaking tub, and generous walk-in closet. Outdoor living continues beneath the covered patio,

Alissa Jenkins
