Welcome to small town living in the heart of Brusly! This home offers country charm, a convenient location, and plenty of potential to make it your own. The roof is only three years old, and a whole home generator was added just two years ago, offering extra peace of mind during Louisiana weather. The home also features an oversized bonus room with just under 1,000 square feet of additional space, complete with a kitchenette and half bath, making it a great space for entertaining, a game room, home gym, hobby space, or a combination of uses. A separate utility room provides additional functionality and storage. Located in the Brusly School District, the home is within walking distance of the elementary school, local park, and pickleball courts while still offering the laid back feel of small town living.
