2 Bedrooms | 2 Bathrooms | 2,110 Sqft

This single-story corner-unit townhome is literally the cutest little place that anyone ever dreamed up. I'm serious. These pictures don't even capture the level of charm and welcome-homey'ness that is happening inside this home. Enter into an open floor plan living, kitchen and dining alley with ceramic wood floors throughout (NO CARPET), 3CM Counters and Matte faucet, stainless steel appliances (Brand new Samsung Fridge Remains). The living room is accented with custom wains cotaaccented walls and built-in fireplace and mounted flat screen TV that is just... the most! In the dining there is custom Built-in Bar/coffee counter and dining set remain. The master bedroom is large and overlooks a private patio and has lots of natural light with walk-in closet and en suite bath. The 2nd bedroom has private full-bathroom and access to utilities (oh, did I mention, Washer & Dryer remain? They do.) Oh... and the office! But like, it's not a mail slot and desk... it's a super functional space with a built-in desk and room to actually function as a comfortable home office. NEW Windows - Oh wait... it's ALL NEW! Water Heater, Insulation, Central A/C & Heat ALL New Construction. And Garage Parking (Are you kidding me?) Just make an appointment. This one is SO GOOD! And don't even get me started on the location y'all. THE Location!
