Looking for a home that offers more than just a place to live? This property offers flexibility, space, and plenty of possibilities for the creative homeowner, entrepreneur, or investor. This home can potentially be converted into a duplex, offering an opportunity to live on one side while generating rental income from the other to help offset your mortgage. Whether you're looking for a single family home, an investment property, a multi-generational living arrangement, or a way to create additional income, this property gives you options. The possibilities continue outside the main house. A large multi-purpose building located behind the home, equipped with kitchen appliances and a full bathroom provides additional space that could be transformed into a home office, studio, workshop, business space, hobby/recreation area, guest quarters or other use to fit your needs. Bring your vision and explore the possibilities!
