The first impression is good. The second is even better. At 154 Presque Isle Drive, classic brick, white and black trim, columns, and beautiful landscaping lead into a 1977 home that has been extensively remodeled. Inside, a statement chandelier welcomes you into the living room. Fresh paint, recessed lighting, and new wide gray ceramic tile carry through the open living space. The renovated kitchen features quartz countertops, updated cabinetry, a dedicated pantry, and new Energy Star stainless steel appliances that remain: refrigerator, range, dishwasher, and microwave. A breakfast nook overlooks the backyard. With four bedrooms and three full baths, the floor plan offers room to make it your own. One area has a separate living space, a large closet with double sliding barn doors and custom shelving, a full bath, and exterior access. It could work for guests, extended family, a home office, or whatever may fit your household. Two spacious bedrooms share a hall bath with double vanities and a tub/shower combination. The primary suite includes double vanities, a separate shower, and a freestanding soaking tub. The bathrooms are just as thoughtfully updated, with quartz countertops, white marble tile, black fixtures, and gold details that tie it all together. The updates run deeper than the cosmetics though. Both central HVAC systems,
