3 Bedrooms | 1 Bathroom | 1,026 Sqft

Cute & Conveniently located just outside the tunnel on the east side of Houma, 805 May Street is a cute 3-bedroom, 1-bath home with an oversized lot, large backyard, rear-yard access, and plenty of potential for an owner-occupant or investment property. Built in 1955 on a slab, the home offers generously sized bedrooms and an open living and kitchen area separated by a service counter. The kitchen features a gas stove, and a double carport provides covered parking with an exterior utility room attached. Major improvements include a roof replaced in 2020, HVAC approximately 7 years old, and a water heater replaced in 2026. Out back, the detached two-story workshop offers electricity and a mini-split system, creating flexible space for a workshop, hobbies, storage, entertaining, or a separate hangout area. The structure was purchased through Home Depot and a permit was pulled. A transferable termite contract is also in place. Electric service is provided by Entergy and gas service by TPCG. With its convenient location, oversized property, rear access, and versatile detached space, this home offers plenty of possibilities for its next owner.
