Looking for a home that gives you the space you need without stretching your budget? This 2-bedroom, 1-bath home offers approximately 1,466 square feet of living space with the major systems already taken care of. The home features a metal roof installed after Hurricane Ida, updated siding, a 2024 HVAC system, a 2026 water heater, and some newer flooring. In other words, many of the big-ticket items have already been updated, giving the next owner a little more peace of mind and a lot less to worry about. Out back, the fully fenced yard gives you plenty of room for pets, kids, entertaining, or just enjoying some outdoor space. The covered carport and porch area provide a great spot to relax, while the spacious workshop offers plenty of room for projects, hobbies, tools, or storage. And with a huge storage loft, there is even more space to put all the stuff you somehow accumulate over the years. Whether you're starting a family, looking for a home that works well for your pets, or simply ready to downsize into something more manageable, this one offers a comfortable amount of space at a price that's easy to appreciate. Come take a look and see if this could be the next place you call home.
