3 Bedrooms | 2 Bathrooms | 2,003 Sqft

Waterfront living in Stone Hill. This 3 bed, 2.5 bath brick home sits right on the subdivision pond, with a bulkhead built in 2017 and a 20x10 deck at the water's edge. Inside, engineered hardwoods run through every non-wet area, with crown molding, columns and an arched front entry setting the tone. The living room has a wall of windows to the covered back patio, and the breakfast area looks out toward the pond, with bar seating and a coffee nook with open shelving. A built-in desk off the kitchen makes an easy home office. The primary suite has double doors, plantation shutters and a large double walk-in closet with built-in shelving. The primary bath offers two separate granite vanities, a subway tile walk-in shower, and a soaking tub. Out back, the covered patio with ceiling fan and a vine-covered pergola is made for evenings by the water. Roof replaced 2024, exterior painted 2023, granite throughout, plantation shutters on the front windows and all bedrooms, and HVAC serviced twice a year on a maintenance plan.
