You don't want to miss out on this 4 bedroom, 2 bath home in Central! When you step into this home the first thing that will catch your attention is the natural light with high ceilings and crown molding. The large living space is perfect for entertaining. You can sit back on cool nights enjoying the newly updated fireplace inside; or you can enjoy the large backyard space with a stone patio that also has a fireplace. Also, in the yard there is 2 raised garden bed for the garden buff. This well designed kitchen has also been updated with stunning cabinets, with golden door handles and knobs, granite counters and a new stove-range, that features a corner walk in pantry. Coming off the oversized garage, with an epoxy coating that has been added along with air conditioning and insulation would make a great man cave, you will see a small office for all your needs. This house has a split floorpan, separating the primary bedroom suite from the three other bedrooms. The primary bedroom has an ensuite bath that has a custom shower with a unique walk-in closet featuring custom designed built in storage. The guest bath has also been updated with a large air bath soaking tub and custom tile backsplash. This home is located on a quiet cul-de-sac within walking distance to the playground. It's minutes from the other BREC parks, restaurants, and shopping. Don't
