The kind of home that makes everyday life feel a little better. Welcome to 7043 Spring Gardens, where comfortable living, thoughtful finishes, and an easy-flowing floor plan come together in a space that feels like home from the moment you walk in. The heart of the home is the open kitchen and living area, designed for real life. Picture slow mornings with coffee at the island, dinner cooking while everyone catches up on the day, or friends gathered around while the game is on in the living room. The spacious granite island offers plenty of room for prep, serving, homework, or pulling up a chair and staying awhile. Crisp cabinetry, stainless steel appliances, and generous counter space complete a kitchen that feels both polished and practical. The kitchen flows naturally into the dining and living areas, giving you plenty of room to gather without losing that cozy, comfortable feeling. Crown molding, neutral finishes, hard-surface flooring, and natural light create a timeless backdrop that is ready for your personal style. The bedrooms offer peaceful spaces to unwind, with flexibility for family, guests, a home office, or whatever fits your season of life. And while the finishes are beautiful, what really stands out about this home is how livable it feels. There is room to entertain, room to relax, and room for the everyday moments that eventually become your favorite
